      RE: Dominion Energy
              Notice of New Natural Gas Construction Project

Dear Ms. Boyd:

Dominion Energy South Carolina, Inc. ("DESC" or "Company") is required to notify the Public Service Commission of South Carolina ("Commission") and the South Carolina Office of Regulatory Staff ("ORS") of natural gas construction projects with costs of $500,000 or more. *See* S.C. Code Ann. Reg. 103-412.2.7(A). In compliance with the regulation, this letter serves as notification to the Commission that DESC plans to install approximately 14 miles of 12" steel transmission pressure gas main along new and existing DESC right of way. This project begins at Summers Drive and extends along DESC right of way to Bees Ferry Road in Charleston, South Carolina. This project is being constructed to serve the East Edisto, Long Savannah and Pine Hill developments, as well as, support system growth in the West Ashley area of Charleston County.

By letter dated December 20, 2016, DESC previously provided the Commission with a notification regarding this project indicating that construction was expected to commence in 2017. However, since that notification, the project has been delayed and the scope has been modified. DESC now anticipates that construction will occur in 2021. The Company anticipates that the total cost for this project will exceed $500,000.

By copy of this letter, we are also notifying the South Carolina Office of Regulatory Staff of the Company's planned construction project.

If you have any questions, please do not hesitate to contact me.

              Very truly yours,

              Matthew W. Gissendanner
